

Work Placements

Target Audience: Under 18s

Number of volunteers required: 1

Budget: £0

Time required: 2-5hrs

Description:

- 1 or 2 School pupils shadow an engineer for a day to experience what their job involves
- An orientation kind of thing that can be done for the student to give an overview of different departments
- Engage them in some possible interesting work to show what engineering is really about

Resources Required:

- HR Approval to follow a Volunteer for a day / half-a-day
- Find other companies and colleagues to take part also.
- Transport to be arranged by school

Outcome:

- Develop an interest in Engineering.
- Companies and pupils make connections for possible later use - more placements
- Pupil insight into how a design or manufacturing office works.
